

Membership Benefits:

1. Company Membership:

- **Networking:** Connect with potential partners, investors, and collaborators across the world.
- **Visibility:** Gain exposure to a wider audience through FABA events, publications, and online platforms.
- **Information Sharing:** Access industry updates, research findings, and best practices in biotechnology.
- **Advocacy:** Have a voice in shaping policies and regulations affecting the biotech sector.
- **Discounted Rates:** Get reduced registration fees for FABA conferences, workshops, and training programs.

2. Institutional Membership:

- **Collaboration Opportunities:** Partner with other institutions for research projects, student exchange programs, and faculty development initiatives.
- **Funding and Grant Support:** Access information on potential funding opportunities and grants relevant to biotechnology research.
- **Recognition:** Gain recognition as a leading institution in the biotech landscape.
- **Policy Influence:** Participate in discussions and contribute to shaping policies related to biotechnology research and education.
- **Discounted Rates:** Benefit from reduced fees for all your students for FABA events and publications focusing on research and development.

3. Individual Membership:

- **Mentorship Opportunities:** Connect with experienced professionals for career guidance and mentorship
- **Discounted Rates:** Get reduced registration fees for FABA conferences, workshops, and training programs.
- **Networking:** Connect with other professionals in the field, fostering collaboration and knowledge exchange.
- **Career Opportunities:** Gain access to job postings and career development resources
- **Recognition:** Receive recognition for achievements and contributions to the field through awards or publications.

4. Student Membership:

- **Mentorship Opportunities:** Connect with experienced professionals for career guidance and mentorship.
 - **Networking:** Build relationships with peers and establish a network within the Asian biotech community.
 - **Scholarships and Awards:** Gain access to scholarship opportunities and awards specifically for students in biotechnology.
 - **Discounted Rates:** Benefit from reduced fees for FABA events and publications geared towards students.
 - **Early Exposure to Industry:** Learn about the latest advancements and career paths in biotechnology.
-

Eligibility Criteria:

1. Company Membership:

(a) Start-up Company:

- Be a registered company with a focus on biotechnology research, development, or application.
- Possess a viable business plan demonstrating potential in the biotech sector.

- May have specific requirements regarding operational time (e.g., minimum of 6 months).

(b) Corporate Company:

- Be a registered company with a significant and established presence in the biotechnology industry.
- Demonstrate a strong commitment to research, development, or commercialization of biotech products or services.

2. Institutional Membership:

- Be a university, research institute, government agency, or non-profit organization actively involved in biotechnology research, education, or policy development.
- Possess qualified personnel and facilities dedicated to biotechnology advancement.

3. Individual Membership:

- Be a scientist, researcher, professional, or entrepreneur working in the field of biotechnology.
- Hold a relevant degree (e.g., Masters, PhD) in biotechnology or a related field (e.g., biology, chemistry).
- May require a minimum number of years of experience in the field.

4. Student Membership:

- Be a currently enrolled student pursuing a degree in biotechnology or a related field.
- May require proof of enrollment from a recognized university.
