

Organised by

Arab Asian Biotechnology Congress 2026

Innovation, Bioindustry, and Sustainable Futures

18–19 September 2026 | Hyderabad, India

AABC 2026

18-19 September 2026 | Hyderabad

Arab Asian Biotechnology Congress 2026

Innovation, Bioindustry, and Sustainable Futures

The 2nd edition of the AABC (AABC 2026) is organized by the Arab Society for Genetic Engineering and Biotechnology (ASGEB) and the Federation of Asian Biotech Associations, Egypt Country Chapter (FABA), under the Patronage of H.E. Dr. Abdel Azzaz Konswa, Minister of Higher Education and Scientific Research, Egypt, and the Chair of FABA.

1. Background

Biotechnology is rapidly transforming healthcare, agriculture, industry, and environmental sustainability. Emerging biotechnologies such as genomics, synthetic biology, AI-driven biotechnology, and advanced biomanufacturing are opening unprecedented opportunities for scientific advancement and economic development.

The AABC was launched as a strategic platform to strengthen scientific collaboration, innovation

partnerships, and technology transfer between Asia and the Arab region.

The inaugural edition of the AABC was successfully hosted by Bibliotheca Alexandrina in Alexandria, Egypt, in 2025, bringing together leading scientists, policymakers, and biotechnology innovators from both regions, as well as from Europe, the USA, and Canada, and establishing a foundation for long-term Asia–Arab cooperation in biotechnology.

Building on this momentum, AABC 2026 will convene leading scientists, biotechnology companies, startups, policymakers, and young researchers to explore emerging biotechnologies and strengthen cooperation between the two regions.

The AABC will be hosted in Hyderabad, widely recognized as one of the world's leading biotechnology hubs and a global center for vaccine manufacturing, bioactive molecules, and therapeutic protein production.

AABC 2026

18-19 September 2026 | Hyderabad

Arab Asian Biotechnology Congress 2026

Innovation, Bioindustry, and Sustainable Futures

Key Thematic Areas

The congress will focus on several interdisciplinary themes including:

Genome editing and
CRISPR technologies

AI-driven
biotechnology

Bioinformatics and
computational biology

Medical and
Pharmaceutical
Biotechnology

Precision medicine and
genomics-based
therapies

Cell and Gene
therapy

Agricultural
Biotechnology and
Climate Change

Industrial and
Environmental
Biotechnology

Arab Asian Biotechnology Congress 2026

Innovation, Bioindustry, and Sustainable Futures

Program Highlights

The congress will feature a dynamic program including:

Keynote Lectures

Panel Discussions

Parallel Sessions

**Young
Biotechnology
Scholars Forum**

**Biotechnology
Startup & Industry
Showcase**

**Networking
Opportunities**

Call for Abstracts

Researchers, scientists, students, and professionals are invited to submit abstracts related to the thematic areas of the congress. Accepted abstracts may be presented as:

- Oral presentations
- Poster presentations

Selected papers may be considered for publication in the **Journal of Genetic Engineering and Biotechnology**, providing an opportunity for wider dissemination of research contributions.

Arab Asian Biotechnology Congress 2026

Innovation, Bioindustry, and Sustainable Futures

DESCRIPTION	PRICE
Students	\$100.00
Faculty/Researcher	\$200.00
Industry Participants	\$400.00

Registration fee includes: Abstract Book, Participation Certificate, Lunch & Tea/Coffee on Conference Day.

The congress welcomes participation from:

- Leading biotechnology researchers
 - Pharmaceutical and biotechnology companies
 - Startups and innovation entrepreneurs
 - Venture capital and investors
 - Government policymakers and regulators
 - International organizations
 - Funding Organizations
 - Incubators, Accelerators, and Biotechnology Parks
 - Graduate students and early-career researchers

IMPORTANT DATES

Registration	July 29, 2026
Abstract Submission	July 31, 2026
Full Length Paper Submission	August 20, 2026
Award Application	September 1, 2026
Intimation of Awards	September 15, 2026
